Save These Dates For NDE Events

- January 19th MLK Day Parade in Las Vegas
- March 28th Sacred Peace Walk (SPW) begins
- April 1st direct action at Creech AFB during SPW
- April 3rd Good Friday—SPW ends w/ direct action at NNSS.
- Date TBA: “Shut Down Creech Forever Party” in league with Code Pink.
- September 19th to 21st Justice For Our Desert

Communicate With Us—Help Us Create Social Justice & Environmental Justice

We all care about honoring each other’s time and resources. As our consciousness grows and is a source of blessing for the world, we keep exercising our spiritual muscles. To be most effective, we wish to communicate clearly, so NDE’s Council asks YOU to please let us know if your contact info has changed, or if you wish to be in a different kind of contact with us. Phone, write, or type to us (e-mail is our current preference, but any contact is better than no contact). Send us email via info@NevadaDesertExperience.org

We are coming to the end of two years of grants and we need your support. Please donate what you can, via mail or on-line with the green donate button on our website. Our postal mailing address is above on this page.
control like the DOE, which is now (late 2014) warming up the YMP on that back burner.

We still have no long-term storage site for holding the waste from nuclear power plants, erroneously termed “high level radioactive waste.” The NNSS continues to take in regular shipments of “low-level nuclear waste” which is buried unsafely as an intentional biological hazard to our environment. That NNSS waste can be just as toxic as the “high level” stuff.

Meanwhile, the nuclear waste called “high level” lays around in more populated areas, waiting for an alleged YMP-style hole in the ground, somewhere. The Price-Anderson Act was last renewed in 2005 for another 20-year guarantee that nuclear power plants can continue poisoning the future with untold levels of toxic waste. Why do the people of the USA continue to allow such irresponsible behavior? Even if we fill the huge hole in Yucca Mountain to capacity, it’s not enough space for all the currently existing radioactive waste, let alone the amounts being generated until 2025. The hole in the mountain needs to be re-filled with only the sacred soil that was removed for unsafe storage of nuclear waste.

Fill Up The Whole Hole CONTINUED From PAGE 1

... and the residents of Creech who said the story broke in the media that the Central Intelligence Agency’s covert program of assassination by drones is not distinct from the drone program of the US Air Force as the world had been made to believe.

On April 15, this was exposed as a lie as former Air Force drone operators, veterans of a super-secret Squadron 17 at Creech, revealed that “it’s always been the Air Force that flies” the CIA’s missions, “the CIA might be the customer, but the Air Force has always flown it.”

Over the years since April 2005, the promises of a new era of better war through drone technology have been steadily unravelling, each of them proving false. It is increasingly clear that rather than limiting the scope of war, drones expand and proliferate it, killing more civilians both on battlefields and far from them, endangering our soldiers and the safety of our communities.

As the United States government commits its resources to intensifying wars in Iraq and Syria and as it approaches the Non-proliferation Treaty Review at the United Nations in May with only the feeblest pretense of compliance, the Nevada National Security Site and Creech Air Force Base are apt places for people of faith and conscience to visit this spring.

The Sacred Peace Walk is a seven day pilgrimage, a 60 mile trek through the Mojave Desert starting at the Las Vegas Strip on March 29, stopping at Creech Air Force Base and ending at the Nevada National Security Site on April 3 marked as Good Friday by many. Walking by snow covered mountain ranges, sleeping under the desert sky, participating in the ceremonies of the Western Shoshone Friends who join in the walk and welcome us to their land, building community, listening and praying with each other, acts of resistance... are cleansing for the spirits of all who participate and we pray, cleansing for our planet at risk.

Please come to Nevada and join us along the way for a few hours, for a day or for the whole walk. For more information, see NevadaDesertExperience.org
