

## Sacred Peace Walk 2013: Las Vegas to the Nevada Test Site (via Creech Air Force Base) Nevada Desert Experience WALK-A-THON Pledges

Hundreds of people have walked the 65 miles from Las Vegas to the Nevada Test Site (NTS, now the Nev. National Security Site) for the of abolition of nuclear weapons and in opposition to the use of this desert for the development of increasingly horrific weapons. As the late Rabbi Abraham Joshua Heschel said when marching with Martin Luther King, Jr, "I felt that my legs were praying." **Use this form to keep track of who you ask to support your peace walk. You won't just be raising money, but also awareness! 100% of your donations will help us "walk our talk" in prayer and unity.**
